District Superintendent's Report

Orangeburg County Consolidated School District Three serves students in the southeastern section of Orangeburg County. The system provides district-wide choice for all students. There are three strands that students are able to choose from that afford them opportunities for career experiences early beginning at elementary school and ending with academies at the high school. The district has seen growth in sub-categories as more students are beginning to move from "not met" to more "proficient" academic performers. Students engage in curriculum designs supported by science, technology, engineering, and math (STEM); International Baccalaureate; or the arts.

The district is becoming more diverse as families move into the area and take advantage of courses such as the Middle College, robotics, bridge building, project lead the way and/or gateway to technology. The high school band competed this year as a state finalist for high school bands. The basketball team competed at the state level semifinals. One elementary school team competed internationally for Odyssey of the Minds. Students also participated in FBLA, Skills USA Pre-Engineering, and Governor's School for the Arts and Humanities. Continuous planning and monitoring of the instructional program have become a natural part of the process for improvement. Students participated in benchmark assessments every five weeks providing teachers with information for data instructional decisions.

Professional learning continues to be a main focus for the staff as student achievement is contingent upon the proficiency of teachers. Teachers have begun to participate in common core standards training, math and literacy instruction. A rich environment is provided to support and enhance student learning. One school was awarded the Palmetto Silver Award for reducing the student academic achievement gap. One school was identified by the state as a Palmetto Priority school; however, by the end of the year, goals for student growth were met. Each school continues to move students from all categories of the reporting system in an upward mobility.

The Board of Trustees stands behind their vision that we will prepare every student for high school graduation and to become positive future leaders.

Cynthia Cash-Greene, Ed. D., Superintendent

ESEA/Federal Accountability Rating System

South Carolina uses new Annual Measures of Objectives (AMOs) that are based on actual school performance as measured by student test scores on the state standards assessments and end-of-course exams.
